3. Look for the column for the grade your student will be in **NEXT** year. Do NOT make any changes in the Academic Plan.

- 4. Review the list of courses for next year. Look at the ______ to see where to find the list. Do NOT make any changes in the Academic Plan. Don't worry if the following year's courses are incomplete. Only look at the grade your student will be in NEXT year. You may see a weird message about courses not found, etc. Don't worry. It is related to the different course numbers for 4 x 4 this year and that the other courses use the 4 x 8 course numbers. The difference does NOT affect earning credit toward graduation or posting to transcripts.
- 5. If the course requests listed for next year are correct, STOP. You do not need to do anything else.
- 6. If the course requests listed for next year are incorrect, use the GOOGLE Form for your student's grade level to request a course be dropped or added. Do NOT make any changes in the Academic Plan.
